Toronto, Ontario Canada: Jamie Armitage owner of Lazer-Tech announced the signing of industry veteran Ms. Ping Li to his sales team. In her new position Ms. Li will be handling Inside Sales.

"We are very pleased to have Ping on board she comes with a wealth of knowledge and experience which we find vital to our new sales initiative. We consider her hiring to be the first important step in the building our sales team for the future" Said Armitage.

Ping Li has been in the printed circuit board industry over ten years holding of number of key positions with a number of companies including Dynamic Details Canada, Data Circuits and Circuit-Tech.

About Lazer-Tech:

Based in Toronto, Lazer-Tech is one of the founding Printed Circuit Board manufacturers in the North America. Since 1968, Lazer-Tech has been a leading supplier of high quality printed circuit boards in both Canada and the United States, servicing their customers in the commercial, communication, computer, aviation, medical and military marketplaces.

Their goal is to become **"Your Printed Circuit Board Solution"**. They strive to serve our customers by exceeding their valued expectations in all aspects of PCB manufacturing.
